Journal of Research in Science Teaching

Volume 29, 1992

CONTENTS

Volume 29, Issue 1, January 1992

- Editorial: *Ron Good* 1
- How Can Comprehension Adjunct Questions Focus Students' Attention and Enhance Concept Learning of a Computer-Animated Science Lesson?: *William G. Holliday and Barry McGuire* 3
- Using Examples and Analogies to Remediate Misconceptions in Physics: Factors Influencing Conceptual Change: *David E. Brown* 17
- Textbook Use and the Biology Education Desired State: *Sandra S. Gottfried and William C. Kyle, Jr.* 35
- A Cross-Age Study of Student Understanding of the Concept of Homeostasis: *Susan L. Westbrook and Edmund A. Marek* 51
- Persuasion and Attitude Change in Science Education: *Thomas R. Koballa, Jr.* 63
- Accelerating the Development of Formal Thinking in Middle and High School Students II: Postproject Effects on Science Achievement: *Michael Shayer and Philip S. Adey* 81
- A Comparison of Student Performance Following Instruction by Interactive Videodisc Versus Conventional Laboratory: *William H. Leonard* 93

Volume 29, Issue 2, February 1992

CONTENTS

- Editorial: A Tribute to Jack Renner: *Ron Good* 103
- Understandings and Misunderstandings of Eighth Graders of Five Chemistry Concepts Found in Textbooks: *Michael R. Abraham, Eileen Bross Grzybowski, John W. Renner, and Edmund A. Marek* 105
- Conceptual Difficulties Experienced by Senior High School Students of Electrochemistry: Electric Circuits and Oxidation-Reduction Equations: *Pamela J. Garnett and David F. Treagust* 121
- Learning about Evolution and Rejecting a Belief in Special Creation: Effects of Reflective Reasoning Skill, Prior Knowledge, Prior Belief and Religious Commitment: *Anton E. Lawson and William A. Worsnop* 143

- Interest Enhancements to Science Experiments: Interactions with Student Gender: *Michael E. Martinez* 167
- Expertise and the Organization of Knowledge: Unexpected Differences Among Genetic Counselors, Faculty, and Students on Problem Categorization Tasks: *Mike U. Smith* 179
- Call for Papers 207

Volume 29, Issue 3, March 1992

CONTENTS

- Editorial: The Importance of Replication Studies: *Ron Good* 209
- Manipulation of Logical Structure of Chemistry Problems and its Effect on Student Performance: *Mansoor Niaz and William R. Robinson* 211
- Gender and Practical Skill Performance in Science: *Roger Lock* 227
- A Comparison of the Classroom Dynamics of a Problem-Solving and Traditional Laboratory Model of Instruction Using Path Analysis: *Edward L. Pizzini and Daniel P. Shepardson* 243
- Variable Uses of Alternative Conceptions: A Case Study in Current Electricity: *Patricia M. Heller and Fred N. Finley* 259
- Students' Conceptions of Chemical Change: *Joseph J. Hesse, III, and Charles W. Anderson* 277
- Race in Biology and Anthropology: A Study of College Texts and Professors: *Leonard Lieberman, Raymond E. Hampton, Alice Littlefield, and Glen Hallead* 301
- Call for Papers 323

Volume 29, Issue 4, April 1992

Special Issue: Teaching About the History and Nature of Science and Technology

CONTENTS

- Editor's Note: *Ron Good* 325
- Teaching About the History and Nature of Science and Technology: An Introduction: *Rodger W. Bybee, James D. Ellis, and Michael R. Matthews* 327
- Students' and Teachers' Conceptions of the Nature of Science: A Review of the Research: *Norman G. Lederman* 331
- Verbal Explanations Given by Science Teachers: Their Nature and Implications: *Zoubeida Dagher and George Cossman* 361

- Teaching Evolution: Understanding and Applying the Nature of Science: *Lawrence C. Scharmann and William M. Harris, Jr.* 375
- Influencing Student Understanding of the Nature of Science: Data from a Case of Curriculum Development: *Yvonne J. Meichtry* 389
- Teaching About the Nature of Science through History: Action Research in the Classroom: *Joan Solomon, Jonathan Duveen, Linda Scot, and Susan McCarthy* 409
- The Historicality of Cognition: Implications for Science Education Research: *James H. Wandersee* 423
- Call for Papers 435

Volume 29, Issue 5, May 1992

CONTENTS

- Guest Editorial: Science Content Errors: An Issue of Immediate Concern: *Frank Sutman* 437
- The Rate of Acquisition of Formal Operational Schemata in Adolescence: A Secondary Analysis: *Shulamith G. Eckstein and Michal Shemesh* 441
- Effectivness of Microcomputer Simulations in Simulating Environmental Problem Solving by Community College Students: *Joseph V. Faryniarz and Linda G. Lockwood* 453
- The Beginning Science Teacher: Classroom Narratives of Convictions and Constraints: *Nancy Brickhouse and George M. Bodner* 471
- A Quantitative and Qualitative Inquiry into the Attitudes toward Science of Nonscience College Students: *Luanne Gogolin and Fred Swartz* 487
- Children's Conceptions of Color: *Elsa Feher and Karen Rice Meyer* 505
- A Comparative Analysis of the Perceived Influence of Advanced Placement and Honors Programs upon Science Instruction: *Norman Edward Herr* 521
- Call for Papers 533

Volume 29, Issue 6, August 1992

CONTENTS

- Editorial: On "Analogy, Explanation, and Education": *Ron Good* 535
- Analogy, Explanation, and Education: *Paul Thagard* 537
- A Curriculum Strategy that Expands Time for In-Depth Elementary Science Instruction by Using Science-Based Reading Strategies: Effects of a Year-Long Study in Grade Four: *Nancy R. Romance and Michael R. Vitale* 545

- Science Instruction for the Mildly Handicapped: Direct Instruction versus Discovery Teaching: *Mary Bay, John R. Staver, Tanis Bryan, and James B. Hale* ... 555
- A Study of Student Outcomes and Teacher Characteristics in Exemplary Middle and Junior High Science Programs: *Bonnie J. Brunkhorst* 571
- Causal Modeling of Secondary Science Students' Intentions to Enroll in Physics: *Frank E. Crawley and Carolyn B. Black* 585
- College Science Majors' Perceptions of Secondary School Science: An Exploratory Investigation: *John Eichinger* 601
- Grade-12 Students' Misconceptions Relating to Fundamental Characteristics of Atoms and Molecules: *Alan K. Griffiths and Kirk P. Preston* 611
- Comments and Criticism
- Comments to the "Methodological Limitations for the Use of Expert Systems Techniques in Science Education Research": *Wolff-Michael Roth* 629
- Author's Response to "Comments to the Methodical Limitations for the Use of Expert Systems Techniques in Science Education Research": *Victor L. Willson* 633

Volume 29, Issue 7, September 1992

CONTENTS

- Editorial: Notes From Bergamo: *Ronald Good* 635
- Differences in Sociocultural Environment Perceptions Associated with Gender in Science Classrooms: *Olugbemiro J. Jegede and Peter Akinsola Okebukola* 637
- The Effect of a Problem Solving In-Service Program on the Classroom Behaviors and Attitudes of Middle School Science Teachers: *Sandra K. Abell and Edward L. Pizzini* 649
- Factors in Life Science Textbooks that May Deter Girls' Interest in Science: *Ellen F. Potter and Sue V. Rosser* 669
- The Relationship between Students' Learning Strategies and the Change in their Misunderstandings During a High School Chemistry Course: *Saouma B. BouJaoude* 687
- Cognitive Development, Genetics Problem Solving, and Genetics Instruction: A Critical Review: *Mike U. Smith and O. Suthern Sims, Jr.* 701
- Systematic Modeling versus the Learning Cycle: Comparative Effects on Integrated Science Process Skill Achievement: *Rochelle L. Rubin and John T. Norman* 715
- Using Reasoning Ability as the Basis for Assigning Laboratory Partners in Nonmajors Biology: *Anton E. Lawson* 729

Volume 29, Issue 8, October 1992
Special Issue: Science Curriculum Reform

CONTENTS

- Editor's Note: *Ron Good* 743
- Overview: Science Curriculum Reform: *James A. Shymansky and William C. Kyle, Jr.* 745
- Establishing a Research Agenda: Critical Issues of Science Curriculum Reform: *James A. Shymansky and William C. Kyle, Jr.* 749
- Educational Reform and Educational Crisis: *Michael W. Apple* 779
- Rethinking Science Education: Beyond Piagetian Constructivism Toward a Sociocultural Model of Teaching and Learning: *Michael O'Loughlin* 791
- Science Education Reform: Building on the Research Base: *Marcia C. Linn* 821
- Directions for Research and Development: Alternative Methods of Assessing Scientific Literacy: *Audrey B. Champagne and Sigrin T. Newell* 841
- Perspectives on Complexity: An Essay on Curricular Reform: *Ronald D. Anderson* 861
- The Local Educational Change Process and Policy Implementation: *Gene E. Hall* 877
- Viewpoint: What We Did Not Learn from the 60s About Science Curriculum Reform: *Robert E. Yager* 905
- Call for Papers 911

Volume 29, Issue 9, November 1992

CONTENTS

- Editorial: *JRST* Welcomes *All* Quality Research: *Ron Good* 913
- Using Videodisk Instruction in an Elementary Science Methods Course: Remediating Science Knowledge Deficiencies and Facilitating Science Teaching Attitudes: *Michael R. Vitale and Nancy R. Romance* 915
- A Cluster Analysis of High School Science Classroom Environments and Attitude toward Science: *Raymond E. Myers III and Jeffrey T. Fouts* 929
- Biology Content Cognitive Structure: From Science Student to Science Teacher: *Patricia L. Hauslein, Ronald G. Good, and Catherine L. Cummins* 939
- What Do Tests of "Formal" Reasoning Actually Measure?: *Anton E. Lawson* 965
- The Effectiveness of Take-Home Science Kits at the Elementary Level: *Eugene Gennaro and Frances Lawrenz* 985

- Conceptual Difficulties with Isomerism: *Hans-Jürgen Schmidt* 995
- Comments and Criticism
- An Analysis of the Relative Success of Qualitative and Quantitative Manuscripts Submitted to the *Journal of Research in Science Teaching:* *James H. Wandersee and Sherry Demastes* 1005
- You Can't Do It by Arithmetic, You Have to Do It by Algebra!: *Norman G. Lederman* 1011
- Toward a Mature Discipline of Science Education: *William C. Kyle, Jr., Sandra K. Abell, and Wolff-Michael Roth* 1015

Volume 29, Issue 10, December 1992

CONTENTS

- Editorial: Evolution Education: An Area of Needed Research: *Ron Good* 1019
- A Comparison of Preservice and In-Service Earth and Space Science Teachers' General Mental Abilities, Content Knowledge, and Problem-Solving Skills: *Robertta H. Barba and Peter A. Rubba* 1021
- Some Interrelationships between Constructivist Models of Learning and Current Neurobiological Theory, with Implications for Science Education: *O. Roger Anderson* 1037
- Factors Influencing Environmental Attitude: The Relationship between Environmental Attitude Defensibility and Cognitive Reasoning Level: *James R. Yount and Phillip B. Horton* 1059
- Conceptual Difficulties Experienced by Senior High School Students of Electrochemistry: Electrochemical (Galvanic) and Electrolytic Cells: *Pamela J. Garnett and David F. Treagust* 1079
- Accelerating the Development of Formal Thinking in Middle and High School Students III: Testing the Permanency of Effects: *Michael Shayer and Philip S. Adey* 1101
- Volume Contents 1119
- Author Index 1125
